### **DETAILED ACTION**

1. Applicant's election of Group I (claims 1-22) in the reply filed on 07/09/08 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. This application is in condition for allowance except for the presence of claims 23-45 directed to inventions non-elected without traverse. Accordingly, claims 23-45 have been cancelled.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 23-45 directed to inventions non-elected without traverse. Accordingly, claims 23-45 have been cancelled.

#### ***Examiner's Amendment***

4. The application has been amended as follows:

In the claims:

Please cancel **claims 23-45**.

This Examiner's amendment was necessary to cancel all non-elected claims.

**(End of Examiner's Amendment)**

***Allowable Subject Matter***

**5. Claims 1-22 are allowed.**

The following is an examiner's statement of reasons for allowance:

The present invention relates to Multimedia Broadcast/Multicast Services (MBMS) in mobile communication systems. More particularly, the invention relates to methods for ensuring MBMS service provision for a mobile device which is moving between cells in a cellular mobile communication system. The procedures for the establishment of MBMS services in different cells of a cellular telecommunications network are provided. In particular, there are provided procedures for maintaining transmission of MBMS data to a particular user equipment, even as it moves from one cell to another, when the service is provided in different ways in different cells.

The closest prior art, Koulakiotis et al. (hereinafter "Koulakiotis"; US 7,031,694) discloses a method for providing a service to a user comprising the steps of: defining an area in which said service is available; transmitting information to a plurality of users in said area at the same time via a common channel; determining if the user is in said area and if said user is in said area, said user being arranged to receive said information transmitted on said common channel, wherein if said user is outside said area, said user being provided with the option of receiving said information via a dedicated channel or the option of not receiving said information, said user being charged for the information received via the common channel in dependence with the

Art Unit: 2618

selected option.. However, Koulakiotis fails to disclose the method for “...providing the multimedia data service to each of said cells on a point-to-multipoint basis without requiring a Radio Resource Control connection, on a point-to-multipoint basis while requiring a Radio Resource Control connection, or on a point-to-point basis; and controlling at least one Radio Network Controller such that, when a user equipment moves from a first cell to a second cell, it is detected whether a Radio Resource Control connection is required in the second cell, and a suitable connection is established in said second cell to allow said user equipment to receive the multimedia data service, wherein at least one of the first and second cells provides the multimedia data service on a point-to-multipoint basis without requiring a Radio Resource Control connection...”. This distinct feature has been added to the sole independent claim and renders it allowable.

**Claims 2-22** are also allowed by virtue of their dependency on claim 1.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
